<p>12.</p> <p>Emerging Trends in Early Childhood Development Teacher Skills Development Training</p>	<p>In this day and age, technology is a crucial part of any industry—including ECE. Kids today are more adept at technology than the previous generations as they have grown up exposed to all kinds of digital technology, particularly smartphones and tablets. And in the classroom, technology has become an important tool in teaching.</p> <p>Early literacy programs aim to help children from 1 to 3 years</p> <p>familiarise themselves with concepts such as phonetics, word sounds, vocabulary, and storytelling awareness even before they go to preschool. These learning concepts improve children’s literacy skills, particularly vocabulary and reading comprehension, increasing their preparedness for childhood education.</p>	<p>March-December 2023</p> <p>Conducted monthly</p> <p>Exact date TBE</p>	<p>-Certificate of Attendance -Certificate of Participation</p>

<p>13.</p> <p>Educational Innovation, Pedagogy and Practices in the New Age of Teaching and Learning Online Seminar</p>	<p>There is a widespread notion that educational systems should empower learners with skills and competences to cope with a constantly changing landscape. Reference is often made to skills such as critical thinking, problem solving, collaborative skills, innovation, digital literacy, and adaptability. What is negotiable is how best to achieve the development of those skills, in particular which teaching and learning approaches are suitable for facilitating or enabling complex skills development. In this paper, we build on our previous work of exploring new forms of pedagogy for an interactive world, as documented in our Innovating Pedagogy report series. We present a set of innovative pedagogical approaches that have the potential to guide teaching and transform learning. An integrated framework has been developed to select pedagogies for inclusion in this paper, consisting of the following five dimensions: (a) relevance to effective educational theories, (b) research evidence about the effectiveness of the proposed pedagogies, (c) relation to the development of twenty-first century skills, (d) innovative aspects of pedagogy, and (e) level of adoption in educational practice.</p>	<p>March-December 2023</p> <p>Conducted monthly</p> <p>Exact date TBE</p>	<p>-Certificate of Attendance -Certificate of Participation</p>

It is centered on three distinct but interrelated skills that teachers must have: as designer, facilitator, and learner. Teachers are also equipped to design effective assessment tools, use technology effectively in the classroom, and using student data to contextualize teaching.</p>	<p>March-December 2023</p> <p>Conducted monthly</p> <p>Exact date TBE</p>	<p>-Certificate of Attendance -Certificate of Participation</p>
